SENIOR PRIMARY EXAMINER

Part of Paper No. 8

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-20, 22-26 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hamadani et al in view of Hisano. Hamadani et al teaches the invention substantially as claimed. However, Hamadani et al does not teach network as claimed. It would have been obvious to put the device of Hamadani in a network as taught by Hisano for the advantage of communicating over distances in an inexpensive manner.
